TRACT 25-22 – HARVEST REQUIREMENTS

The following terms and conditions supplement those provided in the Bayfield County Timber Sale Contract.

A. PRESCRIPTION:

1. Harvest unit 1 has a clearcut prescription with an estimated average residual basal area of 27 sq. ft.
2. Harvest unit 2 has a clearcut prescription within (2-3 acre) patches with an estimated avg. residual basal area of 2 sq.ft.
3. Harvest unit 3 has a clearcut prescription with an estimated average residual basal area of 5 sq. ft.

B. HARVEST REQUIREMENTS:

1. Harvest unit 1: harvest all hardwood 2" and greater except leave all oak and conifer.
2. Harvest unit 2: harvest all hardwood 2" and greater except leave all conifer.
3. Harvest unit 3: harvest all hardwood greater than 4". Leave all conifer.
4. Sale boundaries consist of red paint line, blue paint line, trail, adjacent young timber.
5. The contractor will supply and spread 7 loads (154 tons) of 2" minus rock on the trail off Jodie road as directed by the sale administrator. See map for general location.
6. If harvest will utilize the whole tree, 1 in 10 tops must be left scattered throughout the sale.

C. ACCESS AND ROADS:

1. During winter harvesting the snowmobile trail must be kept unobstructed and in a packed snow condition. The purchaser must ensure that harvesting and hauling operations will not create a safety hazard to snowmobiles. Avoid damage to signs and trail markers. Excessive damage (beyond normal wear and tear) to the snowmobile trail, as determined by the county, will not be tolerated. If Bayfield County determines excessive damage has occurred, the Contractor may be held responsible for a portion or all of the repair. The County and Contractor must communicate on a regular basis to ensure issues are addressed in a timely manner and the snowmobile trail remains in a safe and acceptable condition.

D. OTHER:

1. Minimize damage to younger trees within harvest unit 3.
2. There is blue paint line which denotes private property. Not equipment or trees may cross the blue paint line.
3. In 2018, oak wilt was officially confirmed in Bayfield County. Currently, this timber sale is located more than six miles away from the closest known infected tree. However, over the duration of this contract, additional infections could be discovered. If, over the duration of this contract, including extensions, oak wilt is officially confirmed within a six mile radius of this timber sale, as determined by the county, the following seasonal restriction will be applied: no harvesting operations will be allowed between April 15 (or as otherwise determined by the county) and July 15
4. To comply with Best Management Practices for Invasive Species: Prior to moving equipment onto or off the sale area, scrape or brush soil and debris from exterior surfaces to the extent practical.
5. Do not damage any survey monumentation.
